👤 PROFILE

Full-Stack Developer with 2+ years of experience seeking a challenging role in a progressive organization. Committed to leveraging my skills in HTML, CSS, JavaScript, TypeScript, ReactJS, Angular, MongoDB, and SQL to contribute to innovative projects and foster a collaborative work environment.

💼 PROFESSIONAL SUMMARY

- Having 2+ Years of IT experience in Java Full Stack with ReactJS & AngularJS development.
- Strong Programming knowledge in Java, Hibernate, Spring, Spring MVC and Spring boot, ReactJS, Angular.
- Develop components using Hibernate.
- Good understanding over the web servers like Tomcat.
- Having Good experience on Spring boot, Microservices and ReactJS, Angular Frameworks.
- Good Programming in Analytical skills.
- Having good Experience on Restful Web Services.
- Good Understanding MySQL, PostgreSQL database.
- Dynamic, highly motivated and result-oriented professional.
- Good Understanding UNIX/Shell Scripting

📁 PROJECTS

01/2024 – 08/2024

Capgemini
Analyst / Software Engineer
Developed a end to end application along with the team and build the application successfully using Angular, MySQL, Git for code base and SonarQube for code quality checking.
Responsibilities:-
- Developed and maintained a complex Angular-based web application from inception to deployment.
- Collaborated with a team of developers to design, implement, and test application features.
- Utilized Angular framework and best practices to build scalable and maintainable code.
- Integrated MySQL database for data storage and retrieval.
- Employed Git for version control and SonarQube for code quality assurance.
Achievements:-
- Successfully delivered a functional and user-friendly application within project deadlines.
- Contributed to the team's ability to maintain high code quality standards.
- Demonstrated strong problem-solving and troubleshooting skills.

| 08/2022 – 10/2022 | **Capgemini** |
| | Internship Trainee |

- Developed a comprehensive understanding of various technologies including Java, Spring Boot, Microservices, React.js, HTML, CSS, and several tools and databases.
- Utilized development environments and tools such as Eclipse, IntelliJ, VS Code, and Postman.
- Gained proficiency in database management with PostgreSQL and MongoDB Atlas.
- Successfully built a Proof of Concept (PoC) for a Shopping Cart System, integrating the aforementioned technologies and tools.
- Enhanced skills in both front-end and back-end development through hands-on project work.
- Collaborated with team members to troubleshoot and optimize application performance

🎓 EDUCATION

| 2018 – 2022 | **Graduation** |
| Surampalem | Aditya College of Engineering and Technology |

| 2016 – 2018 | **Intermediate** |
| Amalapuram | Vidyanidhi JR college |

| 2015 – 2016 | **SSC** |
| Udimudi | Slarh English Medium High school |

🧠 SKILLS

- Html5
- Css3
- Java Script
- ReactJs
- Angular
- Type Script
- Core Java
- SpringBoot
- Micro Services
- Spring Security
- Spring MVC
- PostgreSQL
- MySQL
- MongoDB
- UNIX/Shell Scripting
